

ARGUMENT IN FAVOR OF MEASURE L

Vote YES on L to repair and update Esparto classrooms, CTE science labs, and school facilities to support high-quality education for local elementary, middle, and high school students.

Many classrooms in Esparto schools are over 50 years old and require improvements to ensure students learn in a safe and modern environment. Measure L will modernize outdated classrooms and labs to meet today's standards for science, technology, engineering, arts, and math instruction.

Measure L will complete needed repairs to keep our schools functioning efficiently and protect these community assets by replacing old plumbing, electrical, heating, and ventilation systems.

Measure L will also make our schools safer for Esparto students by upgrading school security.

Yes on L upgrades Esparto schools for continued student success by:

- Updating classrooms, CTE labs, innovation labs and other facilities to meet current academic and safety standards
- Modernizing science, technology, engineering, arts, and math classrooms and labs
- Keeping schools clean, well-maintained and in good condition
- Updating classrooms for career technical education and workforce training
- Replacing aging plumbing and electrical systems
- Improving accessibility for students with disabilities
- Upgrading school safety and security
- Improving student access to computers and modern technology

Measure L requires strict Fiscal Accountability

- Every penny must be spent to upgrade Esparto Schools
- No funds can be taken away by the State
- No funds can be spent on administrator salaries or benefits
- A citizens' oversight committee and annual audits will ensure funds are spent as promised

Whether or not you have school-aged children, protecting our local, high-quality education is a wise investment for your property values and a strong community. Vote YES on L

Please join Esparto parents, teachers, businesses, and community leaders and vote YES on L!
