

**FOR MEMBER OF THE CITY COUNCIL
CITY OF WEST SACRAMENTO**

NANCY HETH-TRAN

Age: 29

Occupation: Energy Specialist

West Sacramento is a vibrant environment full of potential to become a renowned contemporary city that celebrates innovation, local businesses, public safety, education, diversity and much more.

In this young city, we as a community can do much more to make this city a great place to live, work and play. West Sacramento needs more amenities to encourage smart growth as each generation's needs, necessities and aspirations have continuously evolved. With my help, we can continue the efforts to revitalizing this place we are fortunate to call home. Having your voice and opinions heard will be my priority.

My career in public service includes providing legislative, budgetary, research and forecasting expertise for various State Departments, Agencies, the California State Legislature and their staff. I believe my knowledge and experience in public policy support my resourcefulness in solving problems, encouraging transparency and supporting the community by engaging in issues that are most important to them.

It would truly be a great honor to serve as your next City Councilmember.

Thank you for your consideration.
