

**STATEMENT OF CANDIDATE FOR
UNITED STATES HOUSE OF REPRESENTATIVE
IN CONGRESS DISTRICT 3**

DAN LOGUE

Occupation: Small Businessman/Assemblyman

If you believe America is headed in the wrong direction, give me a chance to put things right.

I'll start by making members of Congress live more like us by stopping them from taking paychecks and taxpayer-financed pensions at the same time; outlawing junkets and not paying Congress if it can't pass a budget on time.

I'll put the focus on jobs – just like I did in local government.

As County Supervisor, I brought twelve-hundred new jobs to Northern California. As Chairman of the Working Group on Jobs and the Economy, I won praise from Democrats and Republicans alike for my efforts to strengthen the economy.

I worked across party lines to build new water storage facilities and enact a \$700 million drought relief program that helped those who lost jobs because of the drought.

I also implemented innovative health care reforms that saved California \$1 billion and improved the quality of care.

In Congress, I'll work to solve problems created by Obamacare, fight to protect the doctor/patient relationship, clean up the bureaucratic mess, and remove provisions that are costing America the equivalent of 2 million jobs.

I'll also lead the fight to stop a new gas tax that will increase the price of gas by 16-cents a gallon.

Sending the same representatives back to Washington to play the same games won't change a thing.

To keep your doctor, protect your tax dollars, and rebuild the economy, change your Congressman.
